## ABOUT THE AUTHOR

I have been a teacher all my professional life, first in England, and now, for 21 years, in Indonesia. One of the joys of teaching is that I am never bored. Students change from day to day and there is a wide, and fascinating, variety of characters.

While teaching is at times tiring and demanding, the benefits far outweigh the occasional downsides. One happy (and frequent event) is when past pupils come up to me and say, "Hello, Michael, remember me?" So far, I do, but not the names!!

A handwritten signature in blue ink that reads 'Mike Earley'.

## English for Indonesian Beginners, 1<sup>st</sup> Edition

Indonesian	English
Saya gembira.	I am happy.
Dia cantik.	She is beautiful.
Dia jelek.	He is ugly.
Anda tidak gembira.	You are not happy.
Mereka sibuk.	They are busy.

### To be + noun (kata benda)

“A” dan “The” sering digunakan sebelum kata benda yang dapat dihitung (kata benda yang dapat dihitung, misalnya: anjing, lembar). “A” sering digunakan jika kata benda dirujuk untuk pertama kali dan “The” jika kata benda telah digunakan atau jika unik, contohnya “Saya mempunyai anjing. Anjing itu berwarna coklat. “The” juga digunakan untuk kata benda unik, contohnya “Saya telah bertemu Paus.”

Bahasa Indonesia sering memiliki subjek + kata sifat (saya gembira) sedangkan bahasa Inggris memiliki subjek + kata kerja + kata sifat (saya senang). *Saya* dalam hal ini akan digunakan sebagai kata kerja.

Bahasa Indonesia memiliki subjek + kata benda (Dia dokter) sedangkan bahasa Inggris sering menggunakan subjek + kata kerja + artikel pasti (yang) atau tidak pasti (dia adalah seorang dokter. Jika kata benda jamak, Anda tidak menggunakan artikel ‘a’ atau ‘an’.

## UNIT FIVE

### Linking Verbs

#### Menautkan kata kerja

Secara umum kata kerja bukan merupakan kata sifat yang akan secara langsung mengikuti kata kerja karena kata keterangan itu menggambarkan kata kerja.

She spoke *quietly*.

Subj Verb Adv.

In this example, the verb *spoke* is followed by the adverb *quietly*. This adverb describes the verb *spoke*. It tells how she spoke.

Dalam contoh ini, kata kerja 'spoke' diikuti oleh kata keterangan 'quietly'. Kata keterangan ini menjelaskan kata kerja yang diucapkan. Itu menceritakan bagaimana dia berbicara.

However, you must be very careful if the verb is a linking verb. The connecting verb is followed by the adjective and not the adverb.

Namun, anda harus sangat berhati-hati jika kata kerjanya adalah kata kerja yang menghubungkan. Kata kerja yang menghubungkan diikuti oleh kata sifat dan bukan kata keterangan.

She looks *happy*.

Subj L.V Adj

In this example, the verb 'looks' is followed by the adjective 'happy'. This adjective describes the subject *he is*. This gives more details about the subject.

### English for Indonesian Beginners, 1<sup>st</sup> Edition

Dalam contoh ini, tampak kata kerja 'looks' diikuti oleh kata sifat 'happy'. Kata sifat ini menggambarkan subjek dia. Ini memberi rincian lebih lanjut tentang subjek. You must be sure to use adjectives instead of adverbs after the linking verbs. Be careful, because the adjectives that accompany the connecting verbs do not always directly follow the connecting verbs.

Anda harus yakin untuk menggunakan kata sifat daripada kata keterangan setelah kata kerja yang menghubungkan. Berhati-hatilah, karena kata sifat yang menyertai kata kerja yang menghubungkan tidak selalu secara langsung mengikuti kata kerja yang menghubungkan.

She is *very quiet* today.

Subj L.V. Adv Adj Adv

In this example, the adjective 'quiet', which describes the subject of she, is itself explained by the adverb 'very'. From this example, you should note that it is possible to have adverbs directly after the linking verbs, but only if the adverbs describe the adjectives that follow.

Dalam contoh ini, kata sifat 'quiet', yang menggambarkan subjek she, itu sendiri dijelaskan oleh kata keterangan 'very'. Dari contoh ini, anda harus memperhatikan bahwa ada kemungkinan untuk memiliki kata keterangan langsung setelah kata kerja yang menghubungkan, tetapi hanya jika kata keterangan menggambarkan kata sifat yang mengikuti.

Linking Verbs: *appear, be, become, feel, look, prove, seem, smell, taste, sound.*

Kata Kerja Menghubungkan: muncul, jadilah, jadilah, rasakan, lihat, buktikan, tampak, cium, cicipi, terdengar

## Articles

### When to use The

Use **the** before singular and plural nouns when the noun is specific.

*"The man I spoke to in the office was very unfriendly."* - Here we are talking about one specific teacher (the one I spoke to).

### When to use A/An

When we are referring to any member of a group we use *a/an*. It is not important which one we are talking about.

*"I want to rent a new house."* - There are many types of houses. It does not matter which one.

Compare this sentence with:

*"I want to buy the house we looked at last week."* - We use **the** here because we are talking about a specific house (the one we looked at)

A is used before jobs or professions.

### Kapan harus menggunakan *the*.

Gunakan nomina tunggal dan jamak sebelum kata benda spesifik.

"Pria yang kuajak bicara di kantor itu sangat tidak ramah." Di sini kita berbicara tentang satu guru tertentu (yang saya ajak bicara).

### Kapan harus menggunakan *A / An*

Ketika kita merujuk ke anggota grup mana pun kita menggunakan *a/an*. Tidak penting yang mana yang kita bicarakan.

"Saya ingin menyewa rumah baru." - Ada banyak jenis rumah. Tidak menjadi masalah tipe apa yang saya inginkan.

Bandingkan kalimat ini dengan:

"Saya ingin membeli rumah yang kita lihat minggu lalu." - Kita menggunakan *the* di sini karena kita berbicara tentang rumah tertentu (yang kita lihat).

A digunakan sebelum pekerjaan atau profesi.

I am a teacher.

**When NOT to use articles**

A/an are not used with plural nouns or uncountable nouns and the is not used with plural nouns in general statements.

*Therefore "There is a poverty in my village."*

*"Boys like computer games."* - This sentence is ok because we are talking to boys in general (all boys).

Saya seorang guru.

**Kapan TIDAK menggunakan artikel**

A/an tidak digunakan dengan kata benda jamak atau kata benda tak terhitung dan tidak digunakan dengan kata benda jamak dalam pernyataan umum.

Karena itu "Ada kemiskinan di desaku."

"Anak laki-laki suka permainan komputer." - Kalimat ini tidak apa-apa karena kita berbicara tentang anak laki-laki secara umum (semua anak laki-laki).

"Anak laki-laki di klub saya suka permainan komputer" - Ini tidak masalah karena kita berbicara tentang anak laki-laki tertentu (yang ada di klub saya).

**Kata benda yang tak terhitung**

"Kemiskinan adalah masalah." - Kemiskinan adalah kata benda yang tak terhitung.

"Kemiskinan di desa saya adalah masalah." - Ini tidak apa-apa karena kita berbicara tentang lokasi tertentu.

You can tell me if you want but you <b>don't</b></p>	<p>Anda tidak perlu melakukan sesuatu = Anda tidak perlu melakukannya (tetapi anda bisa jika mau):</p> <p>1.
