2. Able to demonstrate critical and analytical thinking and abstracting alternative solution for issues and phenomena on socio-politics, and economy based upon Pancasila values.
3. Able to do a field research on any implementation of government policy and/or socio-political phenomena and writing a scientific final report on the research.
4. Able to presenting the research's result in class effectively

3. Description of Subject:

This class intended to teach students to comprehend the values of Pancasila. It will be started with discussing on the history of Pancasila, in order to give a rather wholly understanding on the purpose of making Pancasila as a concept. The next step is about the means of Pancasila to Indonesia. From that point, the subject will be trying to analyze the concept of Pancasila through philosophical point of view. This point of view will be the basic core on Pancasila as an ideology which will be compared to Liberalism, Capitalism, Socialism, Communism and Welfare State. This ideology will be the new paradigm on political ethics tool to measure the government policy and state's rules. The last subject will be how Pancasila values can be use as a new understanding on scientific research and the future of science.
